

.....
Cut along the outline or
make a custom cut to
fit your application.

INSTRUCTIONS

The football template consists of two pages. Cut along the dashed line of page two and glue or tape this edge along the solid line of page one. Using a razor blade cut along the outline of the football. The base of the football can be cut to fit where you will be applying the stencil, or you can continue cutting along the football's outline. Tape the stencil in place and apply your paint. Once the paint is dry, shift the placement of the football to create groups of footballs.
